What will I learn?

In this course you will learn about:

- **Unit R057 Health and well-being for a child** – Understanding reproduction, antenatal and postnatal care and parenthood.
- **Unit R058 Creating a safe environment and understanding the nutritional needs of children from birth to 5 years** – Key factors when choosing equipment and understanding nutrition in children.
- **Unit R059 Understand the development of children from birth to 5 years** – Understanding physical and social development in children and investigate the benefits of play.

How will I be assessed?

Unit R057 - This unit is assessed by an exam (1 hour 15 minutes) which you will sit in Y11. (50%)

Unit R058 – This unit is assessed by assignments completed in class. (25%)

Unit R059 - The development of children from birth to 5 years is assessed by assignments completed in class. (25%)

Future opportunities

This course provides an excellent foundation for working with children in healthcare or nursery settings. Most colleges offer Level 3 courses in child care which are equivalent to 'A' levels and will allow you to access courses at university.

This course also provides the opportunity to gain an NFCE level 1 award or certificate in caring for children so all abilities are catered for in this subject.
