Dear Parent / Carer,

Due to the current weather forecast, we have reviewed our plans for the rest of the week and are making some **temporary adjustments to uniform expectations** to ensure all students remain as comfortable as possible.

The forecast for the week ahead shows temperatures of 30 degrees or higher, with cooler weather expected over the weekend. To support students during this period of hot weather, the following changes will apply from Tuesday until the end of the week:

- Students may continue to wear their standard uniform if they prefer, but jumpers and blazers are optional
- Alternatively, students may wear their PE kit if they wish, in line with our usual expectations for PE lessons
 - Plain black PE T-shirt with school logo (we will accept plain black t-shirts)
 - Plain black tracksuit bottoms/legging/shorts

We strongly encourage you to send your child to school with a bottle of water and sun cream each day.

We will continue to monitor this heat wave and will inform you of any further updates as necessary.

Yours faithfully

Danny Bullock
Principal
