

Work for Students During School Closure (Snow)

Due to the school being closed today because of the weather, students are expected to complete the work outlined below where possible. This work is designed to help students keep up with their learning and prepare for upcoming assessments.

Years 7, 8 and 9

Students should log on to **Sparx** and complete any work that has been set for them:

- **Sparx Maths** – <https://sparxmaths.com/>
- **Sparx Reader** – <https://sparxreader.com/>
- **Sparx Science** – <https://sparxscience.com/>

In addition, students have upcoming internal assessments. Revision packs and knowledge organisers to help them revise for these assessments can be found here: [KS3 Revision Packs](#) & [KS3 Knowledge Organisers](#)

Years 10 and 11

Students should complete the work set for them on the following platforms:

- **Sparx Maths** – <https://sparxmaths.com/>
- **Sparx Science** – <https://sparxscience.com/>
- **Seneca** (English Language, English Literature and option subjects) – <https://senecalearning.com/en-GB/>

Where possible, students should also use the time to complete any **outstanding coursework tasks**.

Year 10 students have upcoming internal assessments, and Year 11 students have **mock examinations after half term**. Students should therefore revisit previous homework, use revision materials already provided by their teachers, and continue preparing for these assessments.

Thank you for your support and understanding.
