**Qualification:** Level 1/2 Vocational Award in Engineering

**Exam Board:** WJEC

**Level of Achievement:** Level 1/2 Pass/Merit or Distinction

---

**What will I learn?**

If you like making things, solving problems, using tools or are considering a career in engineering or a building trade then this is the qualification for you.

We have introduced a Level 1 and 2 course in Engineering. Learners will develop the skills and knowledge to build engineered products, make and read engineering drawings and learn how to use professional tools within a professional workshop environment.

---

**How will I be assessed?**

This is a practical subject and 60% of the qualification will be an assessment of your technical skills.

The practical assessment is completed in 9 lessons and consists of making an engineered product from your plans.

A short portfolio will support the assessment.

There final exam is worth 40% of the overall grade.

---

**Future opportunities**

This course can lead onto Level 3 study in Engineering related qualifications, apprenticeships and careers in engineering and the building trade.

---

**Subject Teachers:**

- Mr Wainwright
- Mrs Gillott
