Qualification: Certificate in Science
Exam Board: Edexcel
Level of Achievement: Entry level 1/2/3

What will I learn?

The Entry Level Certificate in Science has specifically been designed to closely match the programme of study and provide a progression route to GCSE Combined Science. The certificate supports advancement in science by cementing core understanding and maximising engagement with the subject.

Co-teach ability with GCSE Combined Science – key aspects of the GCSE Combined Science qualification are reflected in the Entry Level Certificate to help with co-teach ability, such as careful selection of practicals and alignment of topics within the two qualifications. This ensures learners can retain the option to attempt the GCSE examinations should they progress well through the Entry Level course.

Assessments designed to encourage progression to GCSE – assessments prepare students for GCSE by drawing on key elements such as the assessment of practical skills while retaining the flavour of Entry Level with assessments can be taken at any time during the course.

How will I be assessed?

You will sit 6 tests out of 25 marks each. 2 Chemistry papers, 2 Biology papers and 2 Physics papers. All of these combined marks will give a level 1, 2 or 3 award.

Tests can be sat at school and are moderated by Edexcel.

Future opportunities

Level 2 courses in Science.

After completion of Level 2 you can then go onto Level 3 Science courses:

Medicine, Dentistry, Pharmacy, Optometry, Engineering

Subject Teachers:

- Mr Chorton
- Mr Wannel
- Dr Suleman
